

STRINGS:

1. Immutable
2. Concatenation of strings
3. Count characters
4. Count words
5. Count sentences
6. Type
7. Type casting of tuples, sets, lists, dictionary
8. Use of single, double and triple quotes
9. Functions : len(), lower(), upper(), count(), find(), replace(), capitalize(), strip(), startswith(), endswith(), index(), isalnum(), isalpha(), isdigit(), islower(), isupper()
10. String indexing and slicing
11. F string
12. Membership and identity operator in string
13. Conditions and loops on strings

LISTS:

1. Mutable
2. Concatenation of lists
3. Type function
4. Type casting
5. Indexing and slicing
6. Membership and identity operators on lists
7. Conditions and loops on lists
8. Functions: len(), min(), max(), append(), extend(), insert(), sum(), sorted(), sort(), pop(), remove(), count(), index()
9. List of lists, tuples, sets, dictionary, strings
